AHANA CHAUDHURY

Bengaluru, India +91-9830177941 ahana.chau99@gmail.com LinkedIn

Professional Summary

Technical Writer and Documentation Specialist with **5+ years of experience** creating and managing enterprise documentation across **Banking & Financial Services, Pharmaceutical, Healthcare, and Digital Platform** domains. Experienced across the full documentation lifecycle, including **requirements gathering, technical writing, structured authoring, peer review, stakeholder approvals, publishing, governance, maintenance, and content lifecycle management**. Skilled in **SOPs, API documentation, developer documentation, user guides, knowledge bases, process documentation, troubleshooting content, and documentation governance**, with hands-on experience in **OpenText, Adobe RoboHelp, Confluence, AEM, ServiceNow, SharePoint, DITA, REST APIs, OpenAPI/Swagger, Markdown, Git, and Docs-as-Code workflows**.

Education

University of Calcutta
Kolkata, India
Bachelor of Arts in English Literature — *2018 – 2021*

Professional Experience

Wells Fargo
Mar 2024 – Present
Procedure Writer — *Bengaluru, India*

- Author, review, and publish **enterprise SOPs and procedural documentation** supporting Corporate Investment Banking and Commercial Real Estate business units using **OpenText**.
- Manage end-to-end **documentation publishing workflows**, including peer reviews, stakeholder approvals, governance checks, controlled releases, and content updates.
- Collaborate with **SMEs, compliance teams, QA teams, and business stakeholders** to ensure documentation accuracy, consistency, and alignment with internal policies and standards.
- Maintain procedure control identifiers, **version tracking, periodic reviews, documentation lifecycle management**, and content updates to support governance and operational compliance.
- Contribute to documentation migration and re-platforming initiatives, including transition of SOPs from **OpenText to the Wells Fargo Policy Governance Platform**.
- Maintain **SharePoint-based trackers** and coordinate documentation lifecycle activities supporting timely publication, annual review completion, process visibility, and documentation governance.
- Contribute to **documentation standardization and process improvement** initiatives aimed at improving consistency and streamlining publishing practices across distributed operational teams.

Cognizant Technology Solutions
Sep 2021 – Mar 2024
Technical Writer — *Chennai, India*

- Created and maintained enterprise documentation including **knowledge base articles, user guides, administrator guides, troubleshooting documentation, FAQs, SOPs, and onboarding materials** across pharmaceutical, financial services, and digital platform domains.
- Developed end-user documentation and administrator guides for enterprise applications and digital platforms using **Adobe RoboHelp and Confluence**.
- Created and maintained **API documentation** and contributed to **DITA-based structured authoring** and documentation workflows for enterprise applications.
- Applied developer-focused documentation practices involving **REST APIs, OpenAPI/Swagger, JSON, Markdown, Git, Git workflows, Docs-as-Code, and documentation tooling** to support structured technical content and API documentation.
- Collaborated with **developers, QA teams, product owners, SMEs, and client stakeholders** to gather technical requirements and translate complex workflows into clear, user-focused documentation.
- Created multimedia learning and support resources including **walkthrough videos, Quick Reference Guides (QRGs), troubleshooting content**, and end-user learning materials.
- Maintained enterprise web content using **Adobe Experience Manager (AEM)** and managed documentation repositories through **ServiceNow and Confluence**.
- Identified and resolved content inconsistencies, broken knowledge links, and documentation governance issues through **technical editing, peer reviews, content management, and cross-functional collaboration**.
